

# INTERNATIONAL MOBILITY & COLLABORATION CENTRE

UNIVERSITI SAINS MALAYSIA

UNIVERSITI SAINS MALAYSIA

**DEAR INTERNATIONAL  
STUDENTS,**

➔ New & existing international students who have obtained eVal-electronic Visa Approval Letter & Travel Authorisation from EMGS/Malaysia Immigration Department and plan to enter Malaysia from 2021 onwards must inform your travel information to USM via the International Mobility & Collaboration Centre (IMCC), so that IMCC can arrange your transportation for pickup at NADMA Quarantine Stations/Centres (Hotels around Kuala Lumpur) to USM after completing your quarantine period (7 or 10 days),

➔ Upon entry to the Campus, students are required to report to USM Medical and Health Facility (according to your campus) before you are assigned to an isolation or surveillance block in USM hostels to complete the remaining 4-7 days from the total of 14 days quarantine period.

➔ It is optional for NEW students to stay inside campus AFTER the isolation period (4-7 days), where they can opt to find accommodation outside campus if they prefer. However, new International students who are coming during this period will be secured for 1 semester accommodation at an on-campus hostel if they want to remain staying inside. Otherwise, they may proceed to their rental homes outside campus if they have already secured the house outside of USM.

**Please email your details pertaining to your return to Malaysia once you have confirmed your travel plans for information on next steps to the persons in charge below:**

## 1. USM Main/Engineering/IPPT Campus
